# PREFACE

IN presenting the fourteenth volume of the MEDICAL DIRECTORY OF NEW YORK, NEW JERSEY AND CONNECTICUT, the Medical Society of the State of New York has endeavored to present the best Medical Directory possible of these three States.

In compiling the list of physicians in New York State, the resolution of the House of Delegates passed on May 19, 1906, has been strictly complied with, viz.:

*"Resolved,* That in the MEDICAL DIRECTORY OF NEW YORK, NEW JERSEY AND CONNECTICUT, published by the Medical Society of the State of New York, only the names of registered physicians be inserted."

The Medical Society of the State of New York will consider it a favor if any one finding errors in this book will report the same, so that they may be corrected in future editions.

The total number of physicians in lists contained in Volume XIV of the MEDICAL DIRECTORY is 17,764, of which 13,696 are in New York State, 2,674 in New Jersey, 1,394 in Connecticut. Of the 13,696 physicians in New York State, 5,159 are credited to Manhattan and Bronx, 1,927 to Brooklyn, 213 to Queens, 66 to Richmond, a total for Greater New York of 7,365, which makes the number of physicians residing in the rest of the State 6,331.

17 West 43d Street, New York.

# CONSTITUTION.

## ARTICLE I.—PURPOSES OF THE SOCIETY.

The purposes of the Society shall be to federate and bring into one compact organization the medical profession of the State of New York; to extend medical knowledge and advance medical science; to elevate the standard of medical education and to secure the enactment and enforcement of just medical laws; to promote friendly intercourse among physicians; to guard and foster the material interests of its members, and to protect them against imposition; and to enlighten and direct public opinion in regard to the great problems of State medicine.

## ARTICLE II.—MEMBERSHIP.

Section 1. The membership of this Society shall include all members of county medical societies now in affiliation with this society, and all members of other county medical societies to which charters shall be granted by the House of Delegates pursuant to the By-Laws of this Society, and any member ceasing to be a member of a county medical society shall cease to be a member of this Society.

Sec. 2. The term county medical society as used in this Constitution shall be deemed to include all societies which may be organized and chartered by the House of Delegates.

Sec. 3. The membership of the Society shall be divided into eight district branches, as provided in the By-Laws.

## ARTICLE III.—OFFICERS.

Section 1. The officers of the Society shall be a President, three Vice-Presidents, a Secretary, a Treasurer, and one Councillor from Each District Branch. They shall be elected annually by ballot for the term of one year, and the majority of the votes cast shall elect. The President, Vice-President, Secretary and Treasurer shall be elected by the House of Delegates. Each Councillor shall be elected by the District Branch of the district in which he resides and shall be the President thereof.

Sec. 2. All officers and the elected members of the standing committees shall assume office at the close of the annual meeting of the Society.

Sec. 3. No delegate elected to the House of Delegates shall be a candidate for office in the Society until after the expiration of the term for which he shall have been elected a delegate, and no person shall be elected to any office in the Society who shall not have been a member of the Society for the two years immediately preceding the date of his election.

## ARTICLE IV.—HOUSE OF DELEGATES.

The House of Delegates shall be the legislative body of the Society and shall be charged with the general management; superintendence and control of the Society and its affairs, and shall have such general powers as may be necessarily incident thereto. It shall have the power to suspend or otherwise discipline county societies. It shall be composed of the officers of the Society and of the chairmen of standing committee,

who shall be ex-officio members thereof, and of the delegates elected to the House of Delegates by county societies in affiliation with the Society. Each county society shall be entitled to elect to the House of Delegates as many delegates as there shall be state assembly districts in that county at the time of the election; except that each county society shall be entitled to elect at least one delegate; and except that, whenever at the time of election the membership of a county society shall include members from an adjoining county or counties in which there shall be no county society in affiliation with this Society, such county society shall be entitled to elect, from among such members, as many additional delegates as there are assembly districts in the county or counties so represented in its membership.

The House of Delegates may provide for a division of the scientific work of the Society into appropriate sections, and for the organization of the District Branches; and it shall have such additional powers and duties not inconsistent with this Constitution as the By-Laws may authorize or prescribe. It may adopt rules and regulations for its own government and for the administration of the affairs of the Society, not repugnant to the Constitution and By-Laws of the Society; and it may delegate to the Council such power and authority as may be necessary to the efficient administration of the affairs of the Society, while the House of Delegates shall not be in session.

### ARTICLE V.—COUNCIL.

The Council shall be the executive body of the Society. It shall consist of the officers of the Society and of the chairmen of standing committees. The Council shall be the Finance Committee of the Society and shall have such additional powers and duties as the By-Laws may prescribe. It may adopt rules and regulations for its own government and for the administration of the affairs of the Society within its control not repugnant to the Constitution and By-Laws of the Society or to the rules and regulations which may be adopted by the House of Delegates.

### ARTICLE VI.—MEETINGS.

Section 1. The Medical Society of the State of New York may, from time to time, change the place and day of holding its annual meeting to such other place and day in the year as may be more convenient, by a two-thirds vote of all the members of the House of Delegates of said Society present at any anniversary or annual meeting of said Society, provided that no such change shall be made unless notice of the intention to change the time and place of such annual meeting shall have been first given at a previous regular annual meeting. An entry in the minutes of said Society of notice of such intention to change the time and place of the annual meeting, and an entry in such minutes of the vote taken upon any motion made pursuant to any such notice, shall be prima facie evidence of such notice, motion, and the vote had thereon respectively.—Chapter 213 of the laws of 1909.

Sec. 2. Intermediate stated meetings may be held at such time and place as the House of Delegates may appoint.

Sec. 3. The notices of the annual, regular and special meetings of the Medical Society of the State of New York, its House of Delegates, Council and Censors shall state the date, place and hour, and shall be mailed in securely postpaid wrapper to each member, at least ten days before said meeting. The affidavit of mailing by the Secretary of the Society to the last recorded address of the member shall be deemed sufficient proof of the service of such notice upon each and every member for any and all purposes.

### ARTICLE VII.—FUNDS.

Funds shall be raised by a per capita assessment on each county society and the amount thereof shall be fixed by the House of Delegates. Funds may also be raised by voluntary contributions, by the sale of the publications of the Society, and in any other manner approved by the House of Delegates. No funds of the Society shall be appropriated for any purpose except pursuant to a resolution of the Council.

### ARTICLE VIII.—REFERENDUM.

Section 1. At any annual or stated meeting of the Society a majority of the members present may order a general referendum on any question in accordance with such general regulations respecting the manner of submission as the House of Delegates may prescribe. Members of the Society may vote thereon by mail or by roll call in open meeting. The poll on the question shall be closed at the expiration of ten days after the general submission and if the members voting shall comprise a majority of

all the members of the Society, a majority of such vote shall determine the question and be binding on the House of Delegates.

Sec. 2. The House of Delegates may voluntarily, by the vote of the majority of its members present at any meeting, submit any question before it to a general referendum, as provided in the preceding section, and the result shall be binding on the House of Delegates.

### ARTICLE IX.—AMENDMENTS.

No article of this Constitution shall be amended except by a two-thirds vote of the delegates present at any annual meeting, nor unless notice of the proposed amendment shall have been given at a previous annual meeting and shall have been published twice during the year in the official bulletin or journal of the Society, or sent by order of the House of Delegates to each county society in affiliation with the Society at least two months before the meeting at which final action shall be taken thereon.

## PRINCIPLES OF MEDICAL ETHICS.*

### PREFACE.

At the annual meeting of the American Medical Association, held in New Orleans, the House of Delegates unanimously adopted, on May 7, 1903, the "Principles of Medical Ethics" recommended by its committee, and ordered that the following extract from the report of the Special Committee on Revision of the Code of Medical Ethics be printed as an explanatory preface to these "Principles":

"The caption 'Principles of Medical Ethics' has been substituted for 'Code of Medical Ethics.' Inasmuch as the American Medical Association may be conceived to hold a relation to the constituent state associations analogous to that of the United States through its constitution to the several states, the committee deemed it wiser to

*Adopted by the Medical Society of the State of New York, May 10, 1906.

formulate the principles of medical ethics without definite reference to code or penalties. Large discretionary powers are thus left to the respective state and territorial societies to form such codes and establish such rules for the professional conduct of their members as they may consider proper, provided, of course, that there shall be no infringement of the established ethical principles of this Association.

"Respectfully submitted,

"Joseph D. Bryant.
"T. J. Happel.
"Nicholas Senn.
"William H. Welch.
"E. Eliot Harris, Chairman."

## CHAPTER I.—THE DUTIES OF PHYSICIANS TO THEIR PATIENTS.

Section 1.—Physicians should not only be ever ready to obey the calls of the sick and the injured, but should be mindful of the high character of their mission and of the responsibilities they must incur in the discharge of momentous duties. In their ministrations they should never forget that the comfort, the health, and the lives of those entrusted to their care depend on skill, attention and fidelity. In deportment they should unite tenderness, cheerfulness and firmness, and thus inspire all sufferers with gratitude, respect and confidence. These observances are the more sacred because, generally, the only tribunal to adjudge penalties for unkindness, carelessness or neglect is their own conscience.

Sec. 2. Every patient committed to the charge of a physician should be treated with attention and humanity, and reasonable indulgence should be granted to the caprices of the sick. Secrecy and delicacy should be strictly observed; and the familiar and confidential intercourse to which physicians are admitted, in their professional visists, should be guarded with the most scrupulous fidelity and honor.

Sec. 3. The obligation of secrecy extends beyond the period of professional services; none of the privacies of individual or domestic life, no infirmity of disposition or flaw of character observed during medical attendance, should ever be divulged by physicians, except when imperatively required by the laws of the State. The force of the obligation of secrecy is so great that physicians have been protected in its observance by courts of justice.

Sec. 4. Frequent visits to the sick are often requisite, since they enable the physician to arrive at a more perfect knowledge of the disease, and to meet promptly every change which may occur. Unnecessary visits are to be avoided, as they give undue anxiety to the patient; but to secure the patient against irritating suspense and disappointment the regular and periodical visits of the physician should be made as nearly as possible at the hour when they may be reasonably expected by the patient.

Sec. 5. Ordinarily, the physician should not be forward to make gloomy prognostications, but should not fail, on proper occasions, to give timely notice of dangerous manifestations to the friends of the patient; and even to the patient, if absolutely necessary. This notice, however, is at times so peculiarly alarming when given by the physician that its deliverance may often be preferably assigned to another person of good judgment.

Sec. 6. The physician should be a minister of hope and comfort to the sick, since life may be lengthened or shortened not only by the acts but by the words or manner of the physician, whose solemn duty is to avoid all utterances and actions having a tendency to discourage and depress the patient.

Sec. 7. The medical attendant ought not to abandon a patient because deemed incurable; for continued attention may be highly useful to the sufferer and comforting to the relatives, even in the last period of the fatal malady, by alleviating pain and by soothing mental anguish.

Sec. 8. The opportunity which a physician has of promoting and strengthening the good resolutions of patients suffering under the consequences of evil conduct ought never to be neglected. Good counsels, or even remonstrances, will give satisfaction, not offense, if they be tactfully proffered and evince a genuine love of virtue, accompanied by a sincere interest in the welfare of the person to whom they are addressed.

## CHAPTER II.—THE DUTIES OF PHYSICIANS TO EACH OTHER AND TO THE PROFESSION AT LARGE.

### ARTICLE I.—DUTIES FOR THE SUPPORT OF PROFESSIONAL CHARACTER.

Section 1. Everyone on entering the profession, and thereby becoming entitled to full professional fellowship, incurs an obligation to uphold its dignity and honor, to

exalt its standing and to extend the bounds of its usefulness. It is inconsistent with the principles of medical science and it is incompatible with honorable standing in the profession for physicians to designate their practice as based on an exclusive dogma or a sectarian system of medicine.

Sec. 2. The physician should observe strictly such laws as are instituted for the government of the members of the profession; should honor the fraternity as a body; should endeavor to promote the science and art of medicine and should entertain a due respect for those seniors who, by their labors, have contributed to its advancement.

Sec. 3. Every physician should identify himself with the organized body of his profession as represented in the community in which he resides. The organization of local or county medical societies, where they do not exist, should be effected, so far as practicable. Such county societies, constituting as they do the chief element of strength in the organization of the profession, should have the active support of their members and should be made instruments for the cultivation of fellowship, for the exchange of professional experience, for the advancement of medical knowledge, for the maintenance of ethical standards, and for the promotion in general of the interests of the profession and the welfare of the public.

Sec. 4. All county medical societies thus organized ought to place themselves in affiliation with their respective state associations, and these, in turn, with the American Medical Association.

Sec. 5. There is no profession from the members of which greater purity of character and a higher standard of moral excellence are required than the medical; and to attain such eminence is a duty every physician owes alike to the profession and to patients. It is due to the patients, as without it their respect and confidence can not be commanded; and to the profession, because no scientific attainments can compensate for the want of correct moral principles.

Sec. 6. It is incumbent on physicians to be temperate in all things, for the practice of medicine requires the unremitting exercise of a clear and vigorous understanding; and in emergencies—for which no physician should be unprepared—a steady hand, an acute eye and an unclouded mind are essential to the welfare and even to the life of a human being.

Sec. 7. It is incompatible with honorable standing in the profession to resort to public advertisement or private cards inviting the attention of persons affected with particular diseases; to promise radical cures; to publish cases or operations in the daily prints, or to suffer such publications to be made; to invite laymen (other than relatives who may desire to be at hand) to be present at operations; to boast of cures and remedies; to adduce certificates of skill and success, or to employ any of the other methods of charlatans.

Sec. 8. It is equally derogatory to professional character for physicians to hold patents for any surgical instruments or medicines; to accept rebates on prescriptions or surgical appliances; to assist unqualified persons to evade the legal restrictions governing the practice of medicine; or to dispense, or promote the use of, secret medicines, for if such nostrums are of real efficacy, any concealment regarding them is inconsistent with beneficence and professional liberality, and if mystery alone gives them public notoriety, such craft implies either disgraceful ignorance or fraudulent avarice. It is highly reprehensible for physicians to give certificates attesting the efficacy of secret medicines, or other substances used therapeutically.

## ARTICLE II.—PROFESSIONAL SERVICES OF PHYSICIANS TO EACH OTHER.

Section 1. Physicians should not, as a general rule, undertake the treatment of themselves, nor of members of their family. In such circumstances they are peculiarly dependent on each other; therefore, kind offices and professional aid should always be cheerfully and gratuitously afforded. These visits ought not, however, to be obtrusively made, as they may give rise to embarrassment or interfere with that free choice on which such confidence depends.

Sec. 2. All practising physicians and their immediate family dependents are entitled to the gratuitous services of any one or more of the physicians residing near them.

Sec. 3. When a physician is summoned from a distance to the bedside of a colleague in easy financial circumstances, a compensation, proportionate to traveling expenses and to the pecuniary loss entailed by absence from the accustomed field of professional labor, should be made by the patient or relatives.

Sec. 4. When more than one physician is attending another, one of the number should take charge of the case, otherwise the concert of thought and action so essential to wise treatment can not be assured.

Sec. 5. The affairs of life, the pursuit of health, and the various accidents and contingencies to which a physician is peculiarly exposed sometimes require the temporary withdrawal of this physician from daily professional labor and the appointment of a colleague to act for a specified time. The colleague's compliance is an act of courtesy which should always be performed with the utmost consideration for the interest and character of the family physician.

ARTICLE III.—THE DUTIES OF PHYSICIANS IN REGARD TO CONSULTATIONS.

Section 1. The broadest dictates of humanity should be obeyed by physicians whenever and wherever their services are needed to meet the emergencies of disease or accident.

Sec. 2. Consultations should be promoted in difficult cases, as they contribute to confidence and more enlarged views of practice.

Sec. 3. The utmost punctuality should be observed in the visits of physicians when they are to hold consultations, and this is generally practicable, for society has been so considerate as to allow the plea for a professional engagement to take precedence over all others.

Sec. 4. As professional engagements may sometimes cause delay in attendance, the physician who first arrives should wait for a reasonable time, after which the consultation should be considered as postponed to a new appointment.

Sec. 5. In consultations no insincerity, rivalry or envy should be indulged; candor, probity and all due respect should be observed toward the physician in charge of the case.

Sec. 6. No statement nor discussion of the case should take place before the patient or friends, except in the presence of all the physicians attending, or by their common consent; and no opinions nor prognostications should be delivered which are not the result of previous deliberation and concurrence.

Sec. 7. No decision should restrain the attending physician from making such subsequent variations in the mode of treatment as any unexpected change in the character of the case may demand. But at the next consultation reasons for variations should be stated. The same privilege, with its obligation, belongs to the consultant when sent for in an emergency during the absence of the family physician.

Sec. 8. The attending physician, at any time, may prescribe for the patient, not so the consultant, when alone, except in a case of emergency or when called from a considerable distance. In the first instance the consultant should do what is needed, and in the second should do no more than make an examination of the patient and leave a written opinion, under seal, to be delivered to the attending physician.

Sec. 9. All discussions in consultation should be held as confidential. Neither by words nor by manner should any of the participants in a consultation assert or intimate that any part of the treatment pursued did not receive his assent.

Sec. 10. It may happen that two physicians can not agree in their views of the nature of a case and of the treatment to be pursued. In the event of such disagreement a third physician should, if practicable, be called in. None but the rarest and most exceptional circumstances would justify the consultant in taking charge of the case. He should not do so merely on the solicitation of the patient or friends.

Sec. 11. A physician who is called in consultation should observe the most honorable and scrupulous regard for the character and standing of the attending physician, whose conduct of the case should be justified, as far as can be, consistently with a conscientious regard for truth, and no hint or insinuation should be thrown out which would impair the confidence reposed in the attending physician.

ARTICLE IV.—DUTIES OF PHYSICIANS IN CASES OF INTERFERENCE.

Section 1. Medicine being a liberal profession, those admitted to its ranks should found their expectations of practice especially on the character and the extent of their medical education.

Sec. 2. The physician, in his intercourse with a patient under the care of another physician, should observe the strictest caution and reserve; should give no disingenuous hints relative to the nature and treatment of the patient's disorder, nor should the course of conduct of the physician, directly or indirectly, tend to diminish the trust reposed in the attending physician.

Sec. 3. The same circumspection should be observed when, from motives of business or friendship, a physician is prompted to visit a person who is under the direction of another physician. Indeed, such visits should be avoided, except under peculiar circumstances and, when they are made no inquiries should be instituted relative to the

nature of the disease, or the remedies employed, but the topics of conversation should be as foreign to the case as circumstances will admit.

Sec. 4. A physician ought not to take charge of, nor prescribe for, a patient who has recently been under the care of another physician, in the same illness, except in case of a sudden emergency, or in consultation with the physician previously in attendance, or when that physician has relinquished the case or has been dismissed in due form.

Sec. 5. The physician acting in conformity with the preceding section should not make damaging insinuations regarding the practice previously adopted, and, indeed, should justify it if consistent with truth and probity; for it often happens that patients become dissatisfied when they are not immediately relieved, and, as many diseases are naturally protracted, the seeming want of success, in the first stage of treatment, affords no evidence of a lack of professional knowledge or skill.

Sec. 6. When a physician is called to an urgent case, because the family attendant is not at hand, unless assistance in consultation is desired, the former should resign the care of the patient immediately on the arrival of the family physician.

Sec. 7. It often happens, in cases of sudden illness, and of accidents and injuries, owing to the alarm and anxiety of friends, that several physicians are simultaneously summoned. Under these circumstances, courtesy should assign the patient to the first who arrives, and who, if necessary, may invoke the aid of some of those present. In such cases, however, the acting physician should request that the family physician be called, and should withdraw unless requested to continue in attendance.

Sec. 8. Whenever a physician is called to the patient of another physician during the enforced absence of that physician, the case should be relinquished on the return of the latter.

Sec. 9. A physician, while visiting a sick person in the country, may be asked to see another physician's patient because of a sudden aggravation of the disease. On such an occasion the immediate needs of the patient should be attended to and the case relinquished on the arrival of the attending physician.

Sec. 10. When a physician who has been engaged to attend an obstetric case is absent and another is sent for, delivery being accomplished during the vicarious attendance, the acting physician is entitled to the professional fee, but must resign the patient on the arrival of the physician first engaged.

## ARTICLE V.—DIFFERENCES BETWEEN PHYSICIANS.

Section 1. Diversity of opinion and opposition of interest may, in the medical as in other professions, sometimes occasion controversy and even contention. Whenever such unfortunate cases occur and can not be immediately adjusted, they should be referred to the arbitration of a sufficient number of impartial physicians.

Sec. 2. A peculiar reserve must be maintained by physicians toward the public in regard to some professional questions, and as there exist many points in medical ethics and etiquette through which the feelings of physicians may be painfully assailed in their intercourse, and which can not be understood or appreciated by general society, neither the subject-matter of their differences nor the adjudication of the arbitrators should be made public.

## ARTICLE VI.—COMPENSATION.

Section 1. By the members of no profession are eleemosynary services more liberally dispensed than by the medical, but justice requires that some limits should be placed to their performance. Poverty, mutual professional obligations, and certain of the public duties named in Sections 1 and 2 of Chapter III should always be recognized as presenting valid claims for gratuitous services; but neither institutions endowed by the public or by the rich, or by societies for mutual benefit, for life insurance, or for analogous purposes, nor any profession or occupation can be admitted to possess such privilege.

Sec. 2. It cannot be justly expected of physicians to furnish certificates of inability to serve on juries, or to perform militia duty; to testify to the state of health of persons wishing to insure their lives, obtain pensions, or the like, without due compensation, but to persons in indigent circumstances such services should always be cheerfully and freely accorded.

Sec. 3. Some general rules should be adopted by the physicians in every town or district relative to the minimum pecuniary acknowledgment from their patients; and it should be deemed a point of honor to adhere to these rules with as much uniformity as varying circumstances will admit.

Sec. 4. It is derogatory to professional character for physicians to pay or offer to pay commissions to any person whatsoever who may recommend to them patients

requiring general or special treatment or surgical operations. It is equally derogatory to professional character for physicians to solicit or to receive such commissions.

CHAPTER II.—THE DUTIES OF THE PROFESSION TO THE PUBLIC.

Section 1. As good citizens it is the duty of physicians to be very vigilant for the welfare of the community, and to bear their part in sustaining its laws, institutions and burdens; especially should they be ready to co-operate with the proper authorities in the administration and the observance of sanitary laws and regulations, and they should also be ever ready to give counsel to the public in relation to subjects especially appertaining to their profession, as on questions of sanitary police, public hygiene and legal medicine.

Sec. 2. It is the province of physicians to enlighten the public in regard to quarantine regulations; to the location, arrangement and dietaries of hospitals, asylums, schools, prisons and similar institutions; in regard to measures for the prevention of epidemic and contagious diseases; and, when pestilence prevails, it is their duty to face the danger, and to continue their labors for the alleviation of the suffering people, even at the risk of their own lives.

Sec. 3. Physicians, when called on by legally constituted authorities, should always be ready to enlighten inquests and courts of justice on subjects strictly medical, such as involve questions relating to sanity, legitimacy, murder by poison or other violent means, and various other subjects, embraced in the science of medical jurisprudence. It is but just, however, for them to expect due compensation for their services.

Sec. 4. It is the duty of physicians, who are frequent witnesses of the great wrongs committed by charlatans, and of the injury to health and even destruction of life caused by the use of their treatment, to enlighten the public on these subjects, and to make known the injuries sustained by the unwary from the devices and pretensions of artful impostors.

Sec. 5. It is the duty of physicians to recognize and by legitimate patronage to promote the profession of pharmacy, on the skill and proficiency of which depends the reliability of remedies, but any pharmacist who, although educated in his own profession, is not a qualified physician, and who assumes to prescribe for the sick, ought not to receive such countenance and support. Any druggist or pharmacist who dispenses deteriorated or sophisticated drugs or who substitutes one remedy for another designated in a prescription ought thereby to forfeit the recognition and influence of physicians.

# MEDICAL LAWS OF THE STATE OF NEW YORK.

LAWS OF NEW YORK, 1907, CH. 344, SIGNED MAY 13, 1907.

Section 1. Definitions as used in this act:

1. The Education Department means the Education Department of the State of New York, as provided for by chapter 40 of the laws of 1904.
2. University means University of the State of New York.
3. Regents means Board of Regents of the University of the State of New York.
4. Board means Board of Medical Examiners of the State of New York.
5. Medical examiner means a member of the Board of Medical Examiners of the State of New York.
6. Medical school means any medical school, college, or department of a university, registered by the Regents as maintaining a proper medical standard as legally incorporated.
7. The practice of medicine is defined as follows: A person practises medicine within the meaning of this act, except as hereinafter stated, who holds himself out as being able to diagnose, treat, operate, or prescribe for any human disease, pain, injury, deformity, or physical condition, and who shall either offer or undertake, by any means or method, to diagnose, treat, operate, or prescribe for any human disease, pain, injury, deformity, or physical condition.
8. Physician means a practitioner of medicine.

Sec. 2. QUALIFICATIONS. No person shall practice medicine unless registered and legally authorized prior to September 1, 1891, or unless licensed by the Regents and registered under article 8 of chapter 661 of the laws of 1893 and acts amendatory thereto, or unless licensed by the Regents and registered as required by this act; nor shall any person practice under this act who has ever been convicted of a felony by any court, or whose authority to practice is suspended or revoked by the Regents on recommendation of the State Board. The conviction of a felony shall include the conviction of any offence which if committed within the State of New York would constitute a felony under the laws thereof.

Sec. 3. THE STATE BOARD OF MEDICAL EXAMINERS. There shall be a State Board of Medical Examiners of nine members who shall be appointed by the Regents and who shall hold office for three years from August 1st of the year in which appointed. In constituting the first board, however, to be appointed under this act, the Regents

shall designate three members to serve for one year from August 1, 1907; three members to serve two years from Aug. 1, 1907, and three members to serve for the full term of three years from Aug. 1, 1907. Thereafter the Regents shall annually appoint three members to fill the vacancies caused by expiration of term of office, and may at any time fill vacancies on the board caused by death, resignation, or removal from office. No person shall be appointed a member of the Board of Medical Examiners who is not eligible to receive a license to practise from the Regents in accordance with the provisions of this act or of chapter 661 of the laws of 1893 and acts amendatory thereof and who has not been in practise in this State for at least five years prior to date of appointment. The Regents may remove any member of the Board of examiners for misconduct, incapacity or neglect of duty. The Regents shall appoint a secretary to the Board of Examiners, who shall not be a member of the board, and who shall hold office during the pleasure of the Regents and who shall receive an annual compensation of $4,000, payable from the fees received under this act. The secretary shall be a duly licensed physician.

Sec. 4. CERTIFICATE OF APPOINTMENT, OATH; POWERS. Every medical examiner shall receive a certificate of appointment from the Regents, and before beginning his term of office shall file with the Secretary of State the constitutional oath of office. The board, or any committee thereof, may employ counsel, shall have the power to compel the attendance of witnesses, and may take testimony and proofs concerning all matters within its jurisdiction. The board may, subject to the Regents' approval, make all by-laws and rules not inconsistent with law needed in performing its duty; but no by-law or rule by which more than a majority vote is required for any specified action by the board shall be amended, suspended or repealed by a smaller vote than that required for action thereunder.

Sec. 5. EXPENSES. The fees derived from the operation of this act shall be paid into the State treasury, and the Legislature shall annually appropriate therefrom for the Education Department an amount sufficient to pay all proper expenses incurred pursuant to this act.

Sec. 6. OFFICERS; MEETINGS; QUORUM; COMMITTEES. The board shall annually elect from its members a president and a vice-president for the academic year, and shall hold one or more meetings each year pursuant to call of the Regents. At any meeting a majority shall constitute a quorum; but questions prepared by the board may be grouped and edited, or answer papers of candidates may be examined and marked by committees duly authorized by the board and approved by the Regents.

Sec. 7. ADMISSION TO EXAMINATION. The Regents shall admit to examination any candidate who pays a fee of $25 and submits evidence, verified by oath, and satisfactory to the Regents, that he

1. Is more than 21 years of age.
2. Is of good moral character.
3. Had prior to beginning the second year of medical study the general education required preliminary to receiving the degree of bachelor or doctor of medicine in this State.
4. Has studied medicine not less than four school years, including four satisfactory courses of at least seven months each, in four different calendar years in a medical school registered as maintaining at the time a standard satisfactory to the Regents. New York medical schools and New York medical students shall not be discriminated against by the registration of any medical school out of the State whose minimum graduation standard is less than that fixed by statutes for New York medical schools. The Regents may, in their discretion, accept as the equivalent for any part of the third and fourth requirement, evidence of five or more years' reputable practice, provided that such substitution be specified in the license, and, as the equivalent of the first year of the fourth requirement, evidence of graduation from a registered college course, provided that such college course shall have included not less than the minimum requirements prescribed by the Regents for such admission to advanced standing. The Regents may also in their discretion admit conditionally to the examination in anatomy, physiology, hygiene, sanitation, and chemistry, applicants 19 years of age certified as having studied medicine not less than two years, including two satisfactory courses of at least seven months each, in two different calendar years, in a medical school registered as maintaining at the time a satisfactory standard, provided that such applicants meet the second and third requirements.
5. Has either received the degree of bachelor or doctor of medicine from some registered medical school, or a diploma or license conferring full right to practise medicine in some foreign country unless admitted conditionally to the examinations

as specified above, in which case all qualifications, including the full period of study, the medical degree and the final examinations in surgery, obstetrics, gynecology, pathology, including bacteriology, and diagnosis must be met. The degree of bachelor or doctor of medicine shall not be conferred in this State before the candidate has filed with the institution conferring it the certificate of the Regents that before beginning the first annual medical course counted toward the degree, unless matriculated conditionally as hereinafter specified, he had either graduated from a registered college or satisfactorily completed a full course in a registered academy or high school; or had a preliminary education considered and accepted by the Regents as fully equivalent; or held a Regent's medical student certificate; or pass Regents' examinations securing 60 academic counts, or their full equivalent, before beginning the first annual medical course counted toward the degree, unless admitted conditionally as hereinafter specified. A medical school may matriculate conditionally a student deficient in not more than one year's academic work of 15 counts of the preliminary education requirement, provided the name and deficiency of each student so matriculated be filed at the Regents' office within three months after matriculation, and that the deficiency be made up before the student begins the second annual medical course counted toward the degree.

6. Where the application be for a license to practise osteopathy, the applicant shall produce evidence that he has studied osteopathy not less than three years including three satisfactory courses of not less than nine months each in three different calendar years in a college of osteopathy maintaining at the time a standard satisfactory to the Regents. After 1910 the applicant for a license to practice under this act shall produce evidence that he has studied not less than four years including four satisfactory courses of not less than seven months each in four different calendar years in a college maintaining at the time a standard satisfactory to the Regents.

Sec. 8. QUESTIONS. The board shall submit to the Regents, as required, lists of suitable questions for thorough examination in anatomy, physiology, hygiene, sanitation, chemistry, surgery, obstetrics, gynecology, pathology, including bacteriology, and diagnosis. From these lists the Regents shall prepare question papers for all these subjects, which at any examination shall be the same for all candidates, except that the examination may be divided as provided in section 7.

Sec. 9. EXAMINATIONS AND REPORTS. Examinations for licenses shall be given in at least four convenient places in this State and at least four times annually, in accordance with the Regents' rules, and shall be exclusively in writing and in English. Each examination shall be conducted by a Regents examiner who shall not be one of the medical examiners. At the close of each examination the Regents examiner in charge shall deliver the questions and answer papers to the board or its duly authorized committee, who, without unnecessary delay, shall examine and mark the answers and transmit to the Regents an official report, signed by its president and secretary, stating the standing of each candidate in each branch, his general average and whether the board recommends that a license be granted. Such report shall include the questions and answers and shall be filed in the public records of the University. If a candidate fails on first examination, he may, after not less than six months' further study, have a second examination without fee. If the failure is from illness or other cause satisfactory to the Regents they may waive the required six months' study.

Sec. 10. LICENSES. On receiving from the State board an official report that an applicant has successfully passed the examinations and is recommended for license, the Regents shall issue to him a license to practise according to the qualifications of the applicant. Every license shall be issued by the University under seal and shall be signed by each acting medical examiner and by the officer of the University who approved the credential which admitted the candidate to examination, and shall state that the licensee has given satisfactory evidence of fitness as to age, character, preliminary and medical education and all other matters required by law, and that after full examination he has been found properly qualified to practise. Applicants examined and licensed by other State examining boards registered by the Regents as maintaining standards not lower than those provided by this article and applicants who matriculated in a New York State medical school before June 5, 1890, and who received the degree of doctor of medicine from a registered medical school before August 1, 1895, may without further examination, on payment of $25 to the Regents and on submitting such evidence as they may require, receive from them an indorsement of their licenses or diplomas conferring all rights and privileges of a Regents license issued after examination. The Commissioner of Education may in his

discretion on the approval of the Board of Regents indorse a license or diploma of a physician from another State, provided the applicant has met all the preliminary and professional qualifications required for earning a license on examination in this State, has been in reputable practice for a period of 10 years, and has reached a position of conceded eminence and authority in his profession. If any person whose registration is not legal because of some error, misunderstanding or unintentional omission, shall submit satisfactory proof that he had all requirements prescribed by law at the time of his imperfect registration and was entitled to be legally registered, he may on unanimous recommendation of the State Board of Medical Examiners receive from the Regents under seal a certificate of the facts which may be registered by any county clerk and shall make valid the previous imperfect registration. Before any license is issued it shall be numbered and recorded in a book kept in the Regents' office, and its number shall be noted in the license; and a photograph of the license filed with the records. This record shall be open to public inspection, and in all legal proceedings shall have the same weight as evidence that is given to a record of conveyance of land.

Sec. 11. REGISTRY; REVOCATION OF LICENSE; ANNULMENT OF REGISTRY. Every license to practise medicine shall, before the licensee begins practice thereunder, be registered in a book kept in the clerk's office of the county where such practice is to be carried on, with name, residence, place and date of birth, and source, number and date of his license to practise. Before registering, each licensee shall file, to be kept in a bound volume in the county clerk's office, an affidavit of the above facts, and also that he is the person named in such license, and had, before receiving the same, complied with all requirements as to attendance, terms and amount of study and examinations required by law and the rules of the University as preliminary to the conferment thereof; that no money was paid for such license, except the regular fees paid by all applicants therefor; that no fraud, misrepresentation or mistake in any material regard was employed by any one or occurred in order that such license should be conferred. Every license, or if lost a copy thereof legally certified so as to be admissable as evidence, or a duly attested transcript of the record of its conferment, shall before registering, be exhibited to the county clerk, who, only in case it was issued or indorsed as a license under seal by the Regents, shall indorse or stamp on it the date and his name preceded by the words: "Registered as authority to practise medicine in the clerk's office of . . . county." The clerk shall thereupon give to every physician so registered a transcript of the entries in the register with a certificate, under seal that he has filed the prescribed affidavit. The licensee shall pay to the county clerk a total fee of $1 for registration, affidavit and certificate. The Regents shall have power at any and all times to inquire into the identity of any person claiming to be a licensed or registered physician and after due service of notice in writing, require him to make reasonable proof, satisfactory to them, that he is the person licensed to practise medicine under the license by virtue of which he claims the privilege of this act. When the Regents find that a person claiming to be a physician, licensed under this act, is not in fact the person to whom the license was issued, they shall reduce their findings to writing and file them in the office of the clerk of the county in which said person resides or practises medicine. Said certificate shall be prima facie evidence that the person mentioned therein is falsely impersonating a practitioner or a former practitioner of a like or different name. The Regents may revoke the license of a practitioner of medicine, or annul his registration, or do both, in any of the following cases:

(a) A practitioner of medicine who is guilty of any fraud or deceit in his practice, or who is guilty of a crime or misdemeanor, or who is guilty of any fraud or deceit by which he was admitted to practice; or

(b) Is an habitual drunkard or habitually addicted to the use of morphine, opium, cocaine, or other drugs having a similar effect; or

(c) Who undertakes or engages in any manner or by any ways or means whatsoever, to procure or perform any criminal abortion as the same is defined by section 294 of the penal code; or

(d) Who offers or undertakes by any manner or means to violate any of the provisions of section 318 of the penal code.

(e) Proceedings for revocation of a license or the annulment of registration shall be begun by filing a written charge or charges against the accused. These charges may be preferred by any person or corporation, or the Regents may on their own motion direct the executive officer of the Board of Regents to prefer said charges. Said charges shall be filed with the executive officer of the Board of Regents, and a

copy thereof filed with the secretary of the Board of Medical Examiners. The Board of Medical Examiners, when charges are preferred, shall designate three of their number as a committee to hear and determine said charges. A time and place for the hearing of said charges shall be fixed by said committee as soon as convenient, and a copy of the charges, together with the notice of the time and place when they will be heard and determined, shall be served upon the accused or his counsel, at least 10 days before the date actually fixed for said hearing. Where personal service or service upon counsel can not be effected, and such fact is certified on oath by any person duly authorized to make legal service, the Regents shall cause to be published for at least seven times, for at least 20 days prior to the hearing, in two daily papers in the county in which the physician was last known to practise, a notice to the effect that at a definite time and place a hearing will be had for the purpose of hearing charges against the physician upon an application to revoke his license. At said hearing the accused shall have the right to cross-examine the witnesses against him and to produce witnesses in his defense, and to appear personally or by counsel. The said committee shall make a written report of its findings and recommendations, to be signed by all its members, and the same shall be forthwith transmitted to the executive officer of the Board of Regents. If the said committee shall unanimously find that said charges, or any of them, are sustained, and shall unanimously recommend that the license of the accused be revoked or his registration be annulled, the Regents may thereupon, in their discretion, revoke said license or annul said registration, or do both. If the Regents shall annul such registration, they shall forthwith transmit to the clerk of the county or counties in which said accused is registered as a physician a certificate under their seal certifying that such registration has been annulled, and said clerk shall, upon receipt of said certificate, file the same and forthwith mark said registration "Annulled." Any person who shall practise medicine after his registration has been marked "Annulled" shall be deemed to have practised medicine without registration. Where the license of any person has been revoked, or his registration has been annulled as herein provided, the Regents may, after the expiration of one year, entertain an application for a new license, in like manner as original applications for licenses are entertained; and upon such new application they may, in their discretion, exempt the applicant from the necessity of undergoing any examination.

Sec. 12. REGISTRY IN ANOTHER COUNTY. A practising physician having registered a lawful authority to practise medicine in one county, and removing such practice or part thereof to another county, or regularly engaging in practice or opening an office in another county, shall show or send by registered mail to the clerk of such other county, his certificate of registration. If such certificate clearly shows that the original registration was of an authority issued under seal by the Regents, or if the certificate itself is indorsed by the Regents as entitled to registration, the clerk shall thereupon register the applicant in the latter county, on receipt of a fee of 25 cents, and shall stamp or indorse on such certificate, the date and his name preceded by the words, "Registered also in . . . county," and return the certificate to the applicant.

Sec. 13. CERTIFICATE PRESUMPTIVE EVIDENCE; UNAUTHORIZED REGISTRATION AND LICENSE PROHIBITED. Every unrevoked certificate and indorsement of registry, made as provided in this article, shall be presumptive evidence in all courts and places that the person named therein is legally registered. Hereafter no person shall register any authority to practise medicine unless it has been issued or indorsed as a license by the Regents. No such registration shall be valid unless the authority registered constituted, at the time of registration, a license under the laws of the State then in force. No diploma or license conferred on a person not actually in attendance at the lectures, instruction and examinations of the school conferring the same, or not possessed at the time of its conferment of the requirements then demanded of medical students in this State as a condition of their being licensed so to practise, and no registration not in accordance with this article shall be lawful authority to practise medicine, nor shall the degree of doctor of medicine be conferred causa honoris or ad eundem nor if previously conferred shall it be a qualification for such practice.

Sec. 14. CONSTRUCTION OF THIS ARTICLE. This article shall not be construed to affect commissioned medical officers serving in the United States army, navy or marine-hospital service, while so commissioned; or any one while actually serving without salary or professional fees on the resident medical staff of any legally incorporated hospital; or any legally registered dentist exclusivey engaged in practising dentistry; or any person or manufacturer who mechanically fits or sells lenses,

artificial eyes, limbs, or other apparatus or appliances, or is engaged in the mechanical examination of eyes, for the purpose of constructing or adjusting spectacles, eyeglasses and lenses; or any lawfully qualified physician in other States or countries meeting legally registered physicians in this State in consultation; or any physician residing on a border of a neighboring State and duly licensed under the laws thereof to practise medicine therein, whose practice extends into this State, and who does not open an office or appoint a place to meet patients or receive calls within this State; or any physician duly registered in one county called to attend isolated cases in another country, but not residing or habitually practising therein; or the furnishing of medical assistance in case of emergency; or the domestic administration of family remedies; or the practice of chiropody; or the practice of the religious tenets of any church. This article shall be construed to repeal all acts or parts of acts authorizing conferment of any degree in medicine causa honoris or ad eundem or otherwise than on students duly graduated after satisfactory completion of a preliminary medical course not less than that required by this article as a condition of license. It is further provided that any person who shall be actively engaged in the practice of osteopathy in the State of New York on the date of the passage of this act, and who shall present to the Board of Regents satisfactory evidence that he is a graduate in good standing of a regularly conducted school or college of osteopathy within the United States which at the time of his or her graduation required a course of study of two years or longer, including the subjects of anatomy, physiology, pathology, hygiene, chemistry, obstetrics, diagnosis and the theory and practice of osteopathy, with actual attendance of not less than 20 months, which facts shall be shown by his or her diploma and affidavit, shall upon application and payment of $10 be granted, without examination, a license to practise osteopathy, provided application for such license be made within six months after the passage of this act. A license to practise osteopathy shall not permit the holder thereof to administer drugs or perform surgery with the use of instruments. Licenses to practise osteopathy shall be registered in accordance with the provisions of this act, and the word osteopath be included in such registration; and such license shall entitle the holder thereof to the use of the degrees D.O., or doctor of osteopathy.

Sec. 15. PENALTIES AND THEIR COLLECTION. Any person who, not being then lawfully authorized to practise medicine within this State and so registered according to law, shall practise medicine within this State without lawful registration or in violation of any provision of this artcle; and any person who shall buy, sell, or fraudulently obtain any medical diploma, license, record, or registration, or who shall aid or abet such buying, selling or fraudulently obtaining, or who shall practise medicine under cover of any medical diploma, license, record, or registration illegally obtained, or signed, or issued unlawfully or under fraudulent representations, or mistake of fact in a material regard, or who, after conviction of a felony, shall attempt to practise medicine, or shall so practise, and any person who shall in connection with his name use any designation tending to imply or designate him as a practitioner of medicine within the meaning of this act without having registered in accordance therewith, or any person who shall practise medicine or advertise to practise medicine under a name other than his own, or any person not a registered physician who shall advertise to practise medicine, shall be guilty of a misdemeanor. Any person who shall practise medicine under a false or assumed name, or who shall falsely personate another practitioner or former practitioner of a like or different name, shall be guilty of a felony. When any prosecution under this act, or under sections 318, 294, 295, 297, 405b of the penal code, and any amendments thereto, is made on the complaint of any incorporated medical society of the State, or any county medical society entitled to representation in a State society, any fines collected shall be paid to the society making the complaint, and any excess of the amount of fines so paid over the expense incurred to the said society in enforcing the medical laws of this State shall be paid at the end of the year to the county treasurer.

Sec. 16. Article 8 of chapter 661 of the laws of 1893, chapter 398 of the laws of 1895, chapter 636 of the laws of 1895, chapter 111 of the laws of 1896, chapter 646 of the laws of 1901, and chapter 243 of the laws of 1902 are hereby repealed.

Sec. 17. This act shall take effect immediately.

## LEGAL DUTIES OF PHYSICIANS.

1. All physicians practicing in the City of New York (including those in public institutions) must be registered with the Department of Health.

2. An attending physician must furnish a certificate of death within thirty-six hours after the death of the patient, or, if death be due to a contagious or infectious disease, forthwith.

3. If a person dies from criminal violence, or by a casualty, or suddenly when in apparent health, or when unattended by a physician, or in prison, or in any suspicious or unusual manner, the case must be referred to a Coroner.

4. It shall be the duty of every physician to report to the Department of Health, in writing, the full name, age, and address of every person suffering from any one of the infectious diseases included in the list appended, with the name of the disease, within twenty-four hours of the time when the case is first seen.

A.—Contagious (very readily communicable): Measles, rubella (rotheln), scarlet fever, small-pox, varicella (chicken-pox), typhus fever, relapsing fever.

B.—Communicable: Diphtheria (croup), typhoid fever, Asiatic cholera, tuberculosis (of any organ), plague, tetanus, anthrax, glanders, epidemic cerebro-spinal meningitis, leprosy, infectious diseases of the eye (trachoma, suppurative conjunctivitis), puerperal septicaemia, erysipelas, whooping cough, acute poliomyelitis (infantile paralysis).

C.—Indirectly communicable (through intermediary host): Yellow fever, malarial fever.

5. Physicians must report births occurring in their practice within ten days after the event.

6. Every physician must preserve a duplicate record of every death and birth so reported.

N.B.—Any violation of the Sanitary Code is a misdemeanor. (See 1172, Chap. 466, Laws of 1901.)

## RULES AND REGULATIONS OF THE DEPARTMENT OF HEALTH RELATING TO PHYSICIANS.

1. Reports of cases of contagious diseases, of births, of still-births, and of deaths must be written with black ink, upon blank forms provided by the Department, which will be furnished upon application, personally or by mail.

2. Certificates of death will be returned for additional information which give any of the following diseases, without explanation, as the sole cause of death:

| | | | |
|---|---|---|---|
| Abortion, | Erysipelas, | Meningitis, | Phlebitis, |
| Cellulitis, | Gangrene, | Metritis, | Pyæmia, |
| Childbirth, | Gastritis, | Miscarriage, | Septicaemia, |
| Convulsions, | Hæmorrhage, | Peritonitis, | Tetanus. |

(Any one of these may be the result of an injury, and thus be a subject for investigation by a Coroner. If it is not, the certificate should make that fact plain.)

3. No certificate will be accepted which gives a mere symptom as the sole cause of death, such as "asphyxia," "debility," "dropsy," "heart failure," etc., unless accompanied by a satisfactory written explanation.

4. Certificates contalning palpable errors of names, dates, etc., which are illegible will be returned, and a new certificate required, as no corrections, erasures, or interlineations will be permitted.

(These certificates are permanent records of great legal importance, and it is necessary that they should show upon the face that they are original records, and have not been tampered with.)

N.B.—Physicians are particularly requested to make their reports of the cause of death as full and accurate as possible, in order that the records of this office may be of statistical value to the medical profession and the public.

It shall be the duty of every undertaker having notice of the death of any person within the City of New York of small-pox, diphtheria (croup), scarlet fever, yellow fever, typhus fever, plague, Asiatic cholera, measles, or any other infectious disease dangerous to the general health of the community, or of the bringing of the dead body of any person who has died of any such disease into such city, to give immediate notice thereof to this Department. No person shall retain or expose, or assist in the retention or exposure of the dead body of any such person except in a coffin or casket properly sealed; nor shall he allow any such body to be placed in any coffin or casket unless the body has been wrapped in a sheet saturated with a proper disinfecting solution, and the coffin or casket shall then be immediately and permanently sealed. No undertaker shall assist in the public or church funeral of any such person. No undertaker shall use, or cause or allow to be used, at any funeral, or in any room where the dead body of any person shall be, any draperies, decorations, rugs or carpets, belonging to or furnished by him or under his direction.

A public or church funeral shall not be held of any person who has died of small-pox, diphtheria (croup), scarlet fever, yellow fever, typhus fever, Asiatic cholera, measles, or plague; but the funeral of such person shall be private, and it shall not be lawful to invite, or permit at the funeral of any person who has died of any one of the above diseases, or of any infectious disease, or at any services connected therewith, any person whose attendance is not necessary, or to whom there is danger of contagion.

# HOYT'S GUM GLUTEN FLOUR

Gives entire satisfaction to the physicians and patients wherever used in the treatment of DIABETES, Rheumatism, Obesity, Stomach and Kidney troubles. The use of our Products reduces the percentage of sugar in the system and the variety makes the starch restricted diet much easier to adhere to.

We guarantee all of our Gum Gluten Products to more than comply with the Government Standard requirements.

## GUM GLUTEN FOODS. WHERE PRODUCED.

A barrel of flour (196 pounds) yields about sixteen pounds of Gluten and one hundred fifty pounds of starch and other starchy products. It is, therefore, obvious that Gum Gluten can be produced economically only in a wheat starch factory. No milling process can produce starch, neither can it produce gluten.

**THE HOYT PRODUCTS:**

**Gum Gluten Flour, Gum Gluten Self Raising Flour,**
**Gum Gluten Breakfast Food, Gum Gluten Biscuit Crisps,**
**Gum Gluten Granules, Gum Gluten Noodles, Hoyt's Sweetina**

Our products are sold by leading grocers in cities everywhere. Send for BOOK OF RECIPES, literature and nearest agent's address.
